To Our Shareholders

Representative Director and Chairman
Kosuke Nishimoto
Representative Director and President
Ryusei Ono

We would like to express our sincere gratitude for your exceptional and continued support.

In recent years, the global market environment surrounding MISUMI Group has undergone significant change, with competition growing increasingly fierce. More recently, developments in U.S. policies—particularly in trade policy—have emerged as a concern, further contributing to an uncertain economic outlook.

Under such circumstances, MISUMI Group is committed to strengthening supply chains in the manufacturing industry by continuously accelerating our Business MODEL and by developing and delivering innovative products and services. We believe our foremost mission is to deliver "Time Value" to customers in the Industrial Automation (IA) industry—specifically through the "reduction of our customers' labor time" and "Reliable, Quick Delivery" in procurement of components essential for automation equipment. To fulfill this social mission on a global scale, we aim to establish unmatched competitive advantages in our Business MODEL, organizational structure, strategy, and operations.

The challenges and growth undertaken by MISUMI drive progress not only for our customers but also for the broader IA industry. By contributing to the sustainable development of society, we create a positive chain reaction that supports MISUMI's sustained growth. MISUMI is committed to a "Growth Chain-Reaction Aspired Management" approach, where every employee independently and proactively embraces challenges. This leads to greater Time Value for our customers, fosters sustainable growth for both our customers and society, and, in turn, creates even more growth opportunities for employees.

We sincerely appreciate your continued support and look forward to your ongoing confidence in MISUMI's future growth and development.

Reference Document

Proposal 1: Dividend of Surplus

MISUMI Group is committed to Growth Chain-reaction Aspired Management, which starts with employees' challenges, and aims to contribute to the sustainable growth of the Industrial Automation (IA) industry- our customer- while also supporting the sustainable development of society through automation and labor saving in the IA industry. To achieve this, we are actively investing in growth in the development of regions, businesses, new products, and services, and are working to advance our Business MODEL that contributes to increasing customer's Time Value. In order to increase corporate value over the medium to long term, the Company will accurately assess the cost of capital and strive to achieve a return on capital that exceeds the cost of capital and widen the equity spread. To this end, we will strike a balance between investing in growth from a medium- to long-term perspective and returning profits to our shareholders.

The Company will revise the benchmark payout ratio from 30% to 35%, considering the strengthening of the management foundation, bolstering of the financial position, and improvement of capital efficiency. Stock repurchases will be implemented flexibly depending on the situation, such as cash position, investment opportunities for growth, and stock market trends.

Based on the revised benchmark described above, the Company is proposing a year-end dividend of **¥23.38** per share.

Pending approval of this proposal, the annualized dividend would be **¥43.21** per share, an increase of **¥15.74** from the previous year's figure, including the interim dividend of **¥19.83** per share (total amount: **¥ 5,462,904,910**) already paid out on **December 3, 2024**.

(1) Type of dividend assets

Cash

(2) Allocation of dividend assets to shareholders and the total amount of dividends

¥23.38 per share of common stock. Total amount: **¥ 6,422,119,215**

(3) Effective date of the dividend of surplus

June 25, 2025

Proposal 2: Election of Ten (10) Directors

The term of office for all nine (9) current Directors will expire at the end of this Meeting. Therefore, the Company proposes the addition of one (1) Outside Director and electing ten (10) Directors including one (1) new Outside Director, in order to strengthen the Board of Directors' management oversight function. The Nomination and Compensation Committee as a voluntary committee (the majority comprises Outside Directors) has deliberated on this Proposal and the Board of Directors has subsequently decided.

If all Director candidates in this proposal are elected, the Board of Directors will consist of ten (10) Directors (seven (7) males and three (3) females), including four (4) Outside Directors.

Candidates for the position of Director are as follows:

4. A person who, within the past year, has met any of the conditions described in items 1 through 3 above;
5. A person whose circumstances may cause conflicts of interest with the Company other than those listed here; or
6. A spouse or a relative within the second degree of kinship of any person falling under items 1 through 5 above.

Business Report

From April 1, 2024, to March 31, 2025

1. Current Status of the MISUMI Group Companies

(1) Overview of Business Results for the Fiscal Year

In this fiscal year, the global economy experienced a gradual recovery in demand for capital investment, particularly within the manufacturing sector. Demand for the automotive and telecommunications sectors remained firm, especially in China, Asia, and Japan. Meanwhile, in Europe, the market continues to stagnate, while in the US, growing uncertainty about the future and a decline in capital investment appetite, demand has yet to see a meaningful recovery.

In this economic environment, MISUMI Group is leveraging its unique Business MODEL, which encompasses manufacturing and distribution businesses. By advancing the global Business foundation supporting these operations, we contribute to industries related to automation demand, particularly the manufacturing industry, by meeting customers' needs for Reliable and Quick Delivery.

We continued to develop new businesses, including new products and services, by capitalizing on the robust business foundations in IT, production, and logistics that we have built over the years, as well as our global network of sites, striving to accurately capture customer demand.

As a result, consolidated net sales reached ¥401,987 million, (9.3% year-over-year increase), marking a new record high. In terms of profits, operating income was ¥46,480 million (21.2% year-over-year increase), ordinary income was ¥49,901 million (20.9% year-over-year increase), and net income attributable to owners of the parent company was ¥36,549 million (29.8% year-over-year increase), due to increased sales volume, improved product mix, and impact from foreign exchange while we continued expenditures related to measures aimed at sustaining growth.

Segment Information

FA Business

The FA business achieved success through regionally tailored unique measures, such as targeting telecommunications demand in China and promoting the Economy Series (a highly price competitive product series newly introduced for mid-range demand), as well as meviy (an AI platform for procurement of mechanical components) in Japan. Sales reached ¥135,803 million (14.9% year-over-year increase) and operating income was ¥22,510 million (49.1% year-over-year increase).

Die Components Business

In the Die components business, customer demand was primarily captured in China and Japan, driven by the gradual recovery of automotive-related sector. Sales reached ¥86,451 million (8.2% year-over-year increase) and operating income was ¥9,504 million (4.0% year-over-year increase).

VONA Business

VONA business is MISUMI Group's distribution business of manufacturing and automation-related equipment parts and indirect materials in the form of consumables such as MRO (Maintenance, Repair, and Operations) products. In addition, this business segment includes MISUMI branded products and third-party manufacturers' products. Growth was driven by Asia and China, resulting in sales of ¥179,732 million (6.0% year-over-year increase), and operating income was ¥14,466 million (2.4% year-over-year increase).

(2) Capital Investment and Financing

Capital investments made during FY24 amounted to ¥15,434 million. The primary investment areas were IT systems, production facilities, and logistics sites. These investments were all self-financed. There were no significant sales or disposals of equipment and facilities.

(3) Challenges and Priorities

We expect the global economy, including Japan, to face an increasingly uncertain business environment as the global supply chain continues to shift toward regional bloc formations and the effects of the U.S. tariff policy becoming apparent. In the industrial sector, however, there are high expectations that the demand for automation will continue to grow worldwide amid ongoing efforts to address various social issues. To meet these customer needs, we will continue to advance our infrastructure and business foundations in IT, Manufacturing, and Logistics and further refine our capabilities for "globally Reliable, Quick Delivery." We will accelerate the development of regional markets, new products and services, etc. to improve Customer's Time Value, and promote the transition to Digital MODELS tailored to meet the needs of each different market.

i. Business domain expansion and global development

Leveraging our strength as both a manufacturer and a distributor, MISUMI Group is accelerating its business domain expansion and global development. In the manufacturing business, we are developing the "Factory Automation Business" dealing with precision mechanical components used in manufacturing equipment and "Die Component Business" that incorporates standard and precision components into molds for mass production of press parts. We realize low costs by producing a vast number of products at the optimal locations.

In the Distribution Business, or the VONA business, we are expanding the product lines that include third-party brands, while strongly promoting the acceleration of global expansion through our uniquely broad lineup and services tailored to our customer's demands and characteristics. Through these efforts, we aim to achieve sustainable growth in the future.

ii. Promotion of Digital MODEL Shift

To address the diversifying needs of automation customers, we continue to advance our Business MODELS and implement region-specific growth strategies. In doing so, we have created certain outcomes.

The content of such "Digital MODELS" includes services such as "meviy" and "Economy Series" that have been deployed so far, "D-JIT" which is a DX innovation in purchasing process of manufacturing components that eliminates delivery time adjustments and waiting time for quotations, and "flow," a total cost reduction service for indirect materials. Based on the philosophy of "Time-based Strategy," which is our Company's foundational approach, aiming to further create "Customer's Time Value." We will fundamentally strengthen existing businesses by integrating these services and promote the Digital MODEL Shift.

iii. Contribution to the sustainable development of society

MISUMI Group provides customers with "Time Value" by "reducing customer's workload" and offering "Reliable, Quick Delivery." The "Industrial Automation industry", the business domain that supports this, is indispensable to the sustainable development of society in the sense that it realizes automation, labor saving, etc. in various social activities.

With our employees' commitment to take on challenges to enhance Customer's Time Value, MISUMI aims to drive a Growth Chain-reaction Aspired Management that fosters prosperity for customers, society, and employees. Please refer to the following sections for MISUMI Group's sustainability approaches and initiatives regarding sustainability that connect to these.

MISUMI Group's Approach to Sustainability

MISUMI Group aims to initiate a Growth Chain-reaction Aspired Management that starts with employees' challenges. With employees' commitment to take on challenges to enhance Customer's Time Value, MISUMI aims to drive a Growth Chain-reaction that fosters prosperity for customers, society, and employees.

MISUMI Group plays a vital role in eliminating inefficiencies within the Industrial Automation (IA) industry by aiding customers and suppliers in reducing all forms of waste. The IA industry significantly contributes to society as it facilitates automation and labor-saving across various social activities, thereby supporting sustainable social development. Sustainable social development drives demand in the industrial sector, creating new opportunities for MISUMI Group.

Our Sustainability Initiatives

● Climate Change

MISUMI Group is committed to engaging in climate change initiatives including the prevention of global warming through our business activities, and endorsed the TCFD Recommendations and joined the TCFD Consortium in September 2021.

Aiming to achieve carbon neutrality by 2050, we have set a target to reduce greenhouse gas (GHG) emissions (Scope 1 and 2) by 42% by fiscal 2030, benchmarked against fiscal 2020. In fiscal 2023, we were able to reduce Group-wide GHG emissions (Scope 1 and 2) by 51,000 tons of CO₂, more than 70% compared to the emissions in fiscal 2020. Specifically, we have introduced solar power generation equipment at our production site in Vietnam, promoted a variety of energy conservation activities at our domestic and overseas production sites, introduced CO₂-free electricity at domestic production sites and our Head Office building and actively used renewable energy certificates for our main production sites in Vietnam, China, Thailand, and India. We will continue to make further efforts to reduce GHG emissions.

● Respect for Human Rights

MISUMI Group considers respect for human rights as a fundamental principle in all activities and has established the "MISUMI Group Human Rights Policy" (the "Human Rights Policy"). We are committed to ensuring management and actions that are always in harmony with the international community. The Human Rights Policy identifies key human rights issues that MISUMI Group must address and promote appropriate measures as follows:

- Respect for individuals' fundamental human rights, individuality, and diversity is regarded as paramount, and discrimination or harassment based on race, nationality, gender, religion, beliefs, birth, age, sexual orientation, physical characteristics, or mental and physical disabilities are prohibited.
- All forms of harassment that unjustly harm individual dignity, such as sexual harassment, power harassment, and moral harassment, are prohibited.
- Diversity in backgrounds, skills, gender, nationality, and other aspects is emphasized, ensuring equal opportunities in hiring, development, promotion, and treatment of personnel.
- Compliance with safety and health-related laws and standards is maintained, and efforts are made to provide a safe and comfortable workplace environment.
- The mental and physical health of employees is prioritized, and long working hours are prevented.
- Employees' rights as workers, including freedom of association, are respected.
- Engagement in any form of child labor or forced labor is strictly prohibited.

The Human Rights Policy is applicable to all officers and employees of MISUMI Group. We will also encourage our business partners, such as suppliers, to understand and support this policy and work to ensure that it is respected.

Additionally, as part of due diligence efforts, human rights risks are evaluated and identified not only within MISUMI Group but also among business partners, with measures implemented to prevent and mitigate such risks.

For communication, comprehensive education and awareness are ensured for all employees within MISUMI Group, while appropriate information is disclosed and dialogue with stakeholders is actively pursued.

For more information, please visit our website:

● Supply Chain Management

MISUMI Group has formulated and implemented “Sustainable Procurement Guidelines.” We actively encourage our primary suppliers to adhere to these Guidelines and conduct assessments on their respect for human rights, promotion of occupational health and safety, and the development status of monitoring systems. With regard to environmental initiatives, MISUMI Group collaborates to enhance sustainable procurement activities by sharing energy consumption data and setting reduction targets to reduce greenhouse gas (GHG) emissions. It also plans to further expand these activities going forward.

We will continue to enhance our quantitative understanding of risks and opportunities, and develop and execute effective countermeasures, taking a comprehensive view of the entire supply chain.

Total	1,098	402	229	116	349	13

Note:

Stock Options compensation has been abolished due to the introduction of Restricted Stock compensation approved at the 61st Annual General Meeting of Shareholders held on June 15, 2023. Although no new Stock Options have been granted in this consolidated fiscal year, the amount of the Stock Options stated above is the compensation and other expenses recorded in this consolidated fiscal year for the Stock Options granted in previous years. In accordance with corporate accounting standards, performance-linked Stock Options are expensed pro rata over 36 months after the resolution of the Stock Options allotment and Restricted stock is expensed pro rata over 12 months.

2) Matters Pertaining to Performance-Linked Compensation

The Company provides Bonuses to Directors as performance-linked compensation. The amount of performance-linked compensation is calculated based on the consolidated ordinary income and dividends amount of each consolidated fiscal year to increase the motivation toward improved business performance for each consolidated fiscal year. Considering all these factors, the amount of compensation for each Director is decided. The performance indicators and results thereof for this consolidated fiscal year are stated in Consolidated Statement of Income on page 43 as for consolidated ordinary income, and in Proposal 1 on page 4 as for the dividend amounts.

3) Details of Non-Monetary Compensation

The Grant of Restricted Stock to the members of the Board of Directors excluding Outside Directors (the “Eligible Directors”) was approved at the 61st Annual General Meeting of Shareholders held on June 15, 2023, to promote value sharing with shareholders through owing shares and to achieve a sustainable increase in the value of the Company. A summary of Restricted Stock is as follows.

Summary of Restricted Stock

(1) Allotment of Restricted Stock

The Company provides monetary compensation claims within the annual limit of ¥850 million as compensation related to Restricted Stock with transfer restrictions based on the resolution of the Board of Directors to the Eligible Directors. Each Eligible Director will receive issuance or disposal of the Company's common stock by providing all the monetary compensation claims as contribution in kind.

The amount to be paid for the Restricted Stock per share shall be determined based on the closing price of the Company's common stock at the Tokyo Stock Exchange on the business day immediately preceding the resolution of the Board of Directors regarding the issuing or disposal of the shares, provided that the amount paid shall not be particularly favorable to the Eligible Director who is to receive the Restricted Stock (if the transaction is not made on that day, the closing price of the most recent transaction day preceding).

The monetary compensation claim shall be provided to Eligible Director on the condition that the Eligible Director has agreed with the contribution in kind and concluded the agreement for allotment of Restricted Stock, including the contents prescribed in (3) below.

(2) Number of Restricted Stock

The total common stock the Company issues or disposes of to the Eligible Directors every fiscal year shall be at most 500,000 shares.

However, suppose the Company's shares are split (including allotment of the Company's common stock without contribution) or consolidated after the resolution of this Proposal, or if any other equivalent event occurs, the total number of common stock issued or disposed of as the compensation of Restricted Stock needs to be adjusted has occurred, the total number shall be adjusted proportionally.

(3) Agreement on Allotment of Restricted Stock

Regarding the issuance or disposal of the Company's common stock above, the agreement for the allotment of Restricted Stock that the Company and Eligible Director conclude shall include the following based on the resolution of the Board of Directors.

(a) Feature of Restriction on Transfer

Regarding the Restricted Stock, the Eligible Director who has been allotted the Restricted Stock may neither transfer the shares to a third person, pledge the shares, establish the security interest on the shares, donate the shares during their lifetime, bequeath, or dispose of shares in any other way ("Transfer Restriction") during the period from the date the Restricted Stock are issued until the date the Eligible Director ceases to hold the status of an Officer or employee of the Company or its subsidiaries or affiliates ("Restricted Period")

(b) Removal of the Transfer Restriction

The Company lifts the Transfer Restriction of all Restricted Stock at the time of expiration of the Restricted Period.

(c) Malus and Clawback Clause

The Company stipulates that in the event of serious misconduct or violation by an Eligible Director, such Director's compensation (including beneficial interest) maybe confiscated or claimed for restitution.

(d) Treatment of Shares in Case of the Company's Reorganization

Notwithstanding (3)(a), in the event that the merger agreement in which the Company disappears, the share exchange agreement or the share transfer plan in which the Company is to be a subsidiary of another or any other matters related to the Company's reorganization are approved by resolution of the Shareholders' meeting (or the Board of Directors if approval of the Shareholders' meeting is not necessary for the Company's reorganization) during the Restricted Period, the Company shall, by resolution of the Board of Directors, lift the Transfer Restriction of the Restricted Stock before the effective date of such reorganization of the Company, for the proportional number of allotted Restricted Stock, which is decided by considering the period from beginning date of the Restricted Period to the approval date of such reorganization of the Company.

In this case, upon the immediate lifting of the Transfer Restriction as per the above provisions, the allocated shares that still have the Transfer Restriction will be acquired by the Company free of charge.

4) Matters Pertaining to Resolutions of the Annual General Meeting of Shareholders regarding Compensation for Directors and Corporate Auditors

By resolution of the 52nd Annual General Meeting of Shareholders held on June 13, 2014, the total amount of compensation for Inside Directors shall not exceed ¥1,100 million per annum (including a maximum of ¥40 million for Outside Directors). This does not include Directors’ salaries as employees of the Company or stock acquisition rights issued as Stock Options. The number of Directors at the end of the said Annual General Meeting of Shareholders was 7 (including 1 Outside Director). In relation to that resolution, by resolution of the 62nd Annual General Meeting of Shareholders held on June 13, 2024, the total amount of compensation for Directors was not changed, and the amount of compensation for Outside Directors shall not exceed ¥80 million per annum. The number of Directors at the end of the said Annual General Meeting of Shareholders was 9 (including 3 Outside Directors).

Additionally, separate from the aforementioned compensation, by resolution of the 61st Annual General Meeting of Shareholders held on June 15, 2023, the granting of Restricted Stock to Directors (excluding Outside Directors) as compensation shall not exceed ¥850 million per annum. The number of Directors at the end of the said Annual General Meeting of Shareholders was 8 (including 3 Outside Director).

By resolution of the of the 62nd Annual General Meeting of Shareholders held on June 13, 2024, the total amount of compensation for Corporate Auditors shall not exceed ¥80 million per annum. The number of Corporate Auditors at the end of the said Annual General Meeting of Shareholders was 4.

5) Matters Pertaining to the Policy for Deciding the Details of Individual Compensation for the Directors

The Company established the “Policy for Deciding the Details of Individual Compensation for the Directors” (the “Policy”) at the Board of Directors Meeting held on May 18, 2023, as detailed below.

It should be noted that, in deciding individual compensation for Directors, the Nomination and Compensation Committee conducts deliberation from various perspectives, including the consistency with the Policy, through mutual consultation among the members. Therefore, it is deemed by the Board of Directors that such decisions are consistent with the Policy.

The Policy for Deciding the Details of Individual Compensation for the Directors

1. Basic Policy and Composition of Compensation for Directors

Regarding the amount of compensation for Directors, the Company's policy is to provide appropriate compensation in light of experience, market standards and contribution. Specifically, the compensation of Directors shall be composed of "Basic Compensation" which is a fixed amount, "Performance-Linked Compensation," the amount of which may vary depending on the Company's performance, and "Restricted Stock" as a Long-Term Incentive. With respect to Outside Directors, who are independent of the executory function, the Company provides Basic Compensation only from the viewpoint of their function and independence.

(1) Basic Compensation

With respect to the Basic Compensation, the amount shall be decided according to the role and position of each Director, considering the market standard and provided as monthly fixed compensation.

(2) Performance-Linked Compensation (Bonuses)

Considering the consolidated ordinary income and dividends amount of each consolidated fiscal year, the amount of Performance-Linked Compensation shall be decided to enhance Director's motivation to contribute to business performance for each consolidated fiscal year. Performance-Linked Compensation shall be provided as bonuses at a certain time each year.

(3) Long-Term Incentive (Restricted Stock)

Long-Term Incentive is granted in the form of Restricted Stock to enhance Directors' motivation to contribute to improvement of the medium to long-term performance and corporate value. The Restricted Stock shall be granted based on the individual evaluation at a certain time each year. The transfer restriction shall be lifted when the Director ceases to hold the status of an Officer or employee of the Company or its subsidiaries or affiliates.

If there are any restrictions on the granting of Restricted Stock, cash may be paid in lieu of granting the Restricted Stock.

2. Proportion of Basic Compensation, Performance-Linked Compensation and Long-Term Incentive

The Company shall set the proportion of compensation appropriately, considering the Company's strategy/business environment, role/position, and medium to long-term incentives regarding the compensation standard using benchmark companies with similar size, business area. The amount of Performance-Linked Compensation and Long-Term Incentive (Restricted Stock) may vary, or may not be provided at all, depending on the Company's performance and individual evaluation.

3. Process of Deciding Individual Compensation of Directors

With respect to individual compensation and other matters relating to the compensation of Directors, the Representative Directors shall propose, and the Nomination and Compensation Committee which consists of Outside Directors and Representative Directors (with a majority of its members being Outside Directors) shall decide through mutual consultation among its members. To issue Long-Term Incentive (Restricted Stock), the Company must obtain a resolution from the Board of Directors in addition to the decision by the Nomination and Compensation Committee.

4. Clawback clause for a Director's Compensation

In the event of serious misconduct or violation by a Director, the said Director's compensation (including beneficial interest) may be confiscated or claimed for restitution.

6) Matters Pertaining to the Delegation of Decisions on Individual Compensation of Directors

With respect to individual compensation and other matters relating to the compensation of Directors concerning the fiscal year under review, Representative Director and President Ryusei Ono proposed, and the Nomination and Compensation Committee decided through mutual consultation among its members; comprised of Outside Director Yoichi Nakano as Chairman of Nomination and Compensation Committee, Outside Director Tomoharu Suseki, Outside Director Keiko Yano, Representative Director and Chairman Kosuke Nishimoto, and Representative Director and President Ryusei Ono. The reason for delegating decision-making authority to the Nomination and Compensation Committee is to enhance transparency and accountability regarding decision-making on compensation. For the grant of Long-Term Incentive (Restricted Stock), the Nomination and Compensation Committee deliberated and decided on the terms and conditions, such as the number of units, and subsequently obtained a resolution from the Board of Directors.

7) Matters Pertaining to the Clawback Clause for a Director's Compensation

In the event of serious misconduct or violation by a Director, the said Director's compensation (including beneficial interest) may be confiscated or claimed for restitution.
